# KEY CAPACITIES (and growing)

## Factory Environment

### Wafer Processing

**300+**

Probers

**60+**

Wafer Saws

**5+**

Back Grinders

**150+**

Flip Chip T&R

### Advanced SiP Assembly

**20+**

SiP Lines

**30+**

Moulds

**20+**

Laser Markers

**30+**

AOIs

### Automated Test Equipment (ATEs)

**1,500+**

Test Systems

**70+**

ATE Testers

**1,000+**

Handlers

**50+**

AOIs

### End Applications

RF devices for  
Smart Phones

Sensors for  
Automotive

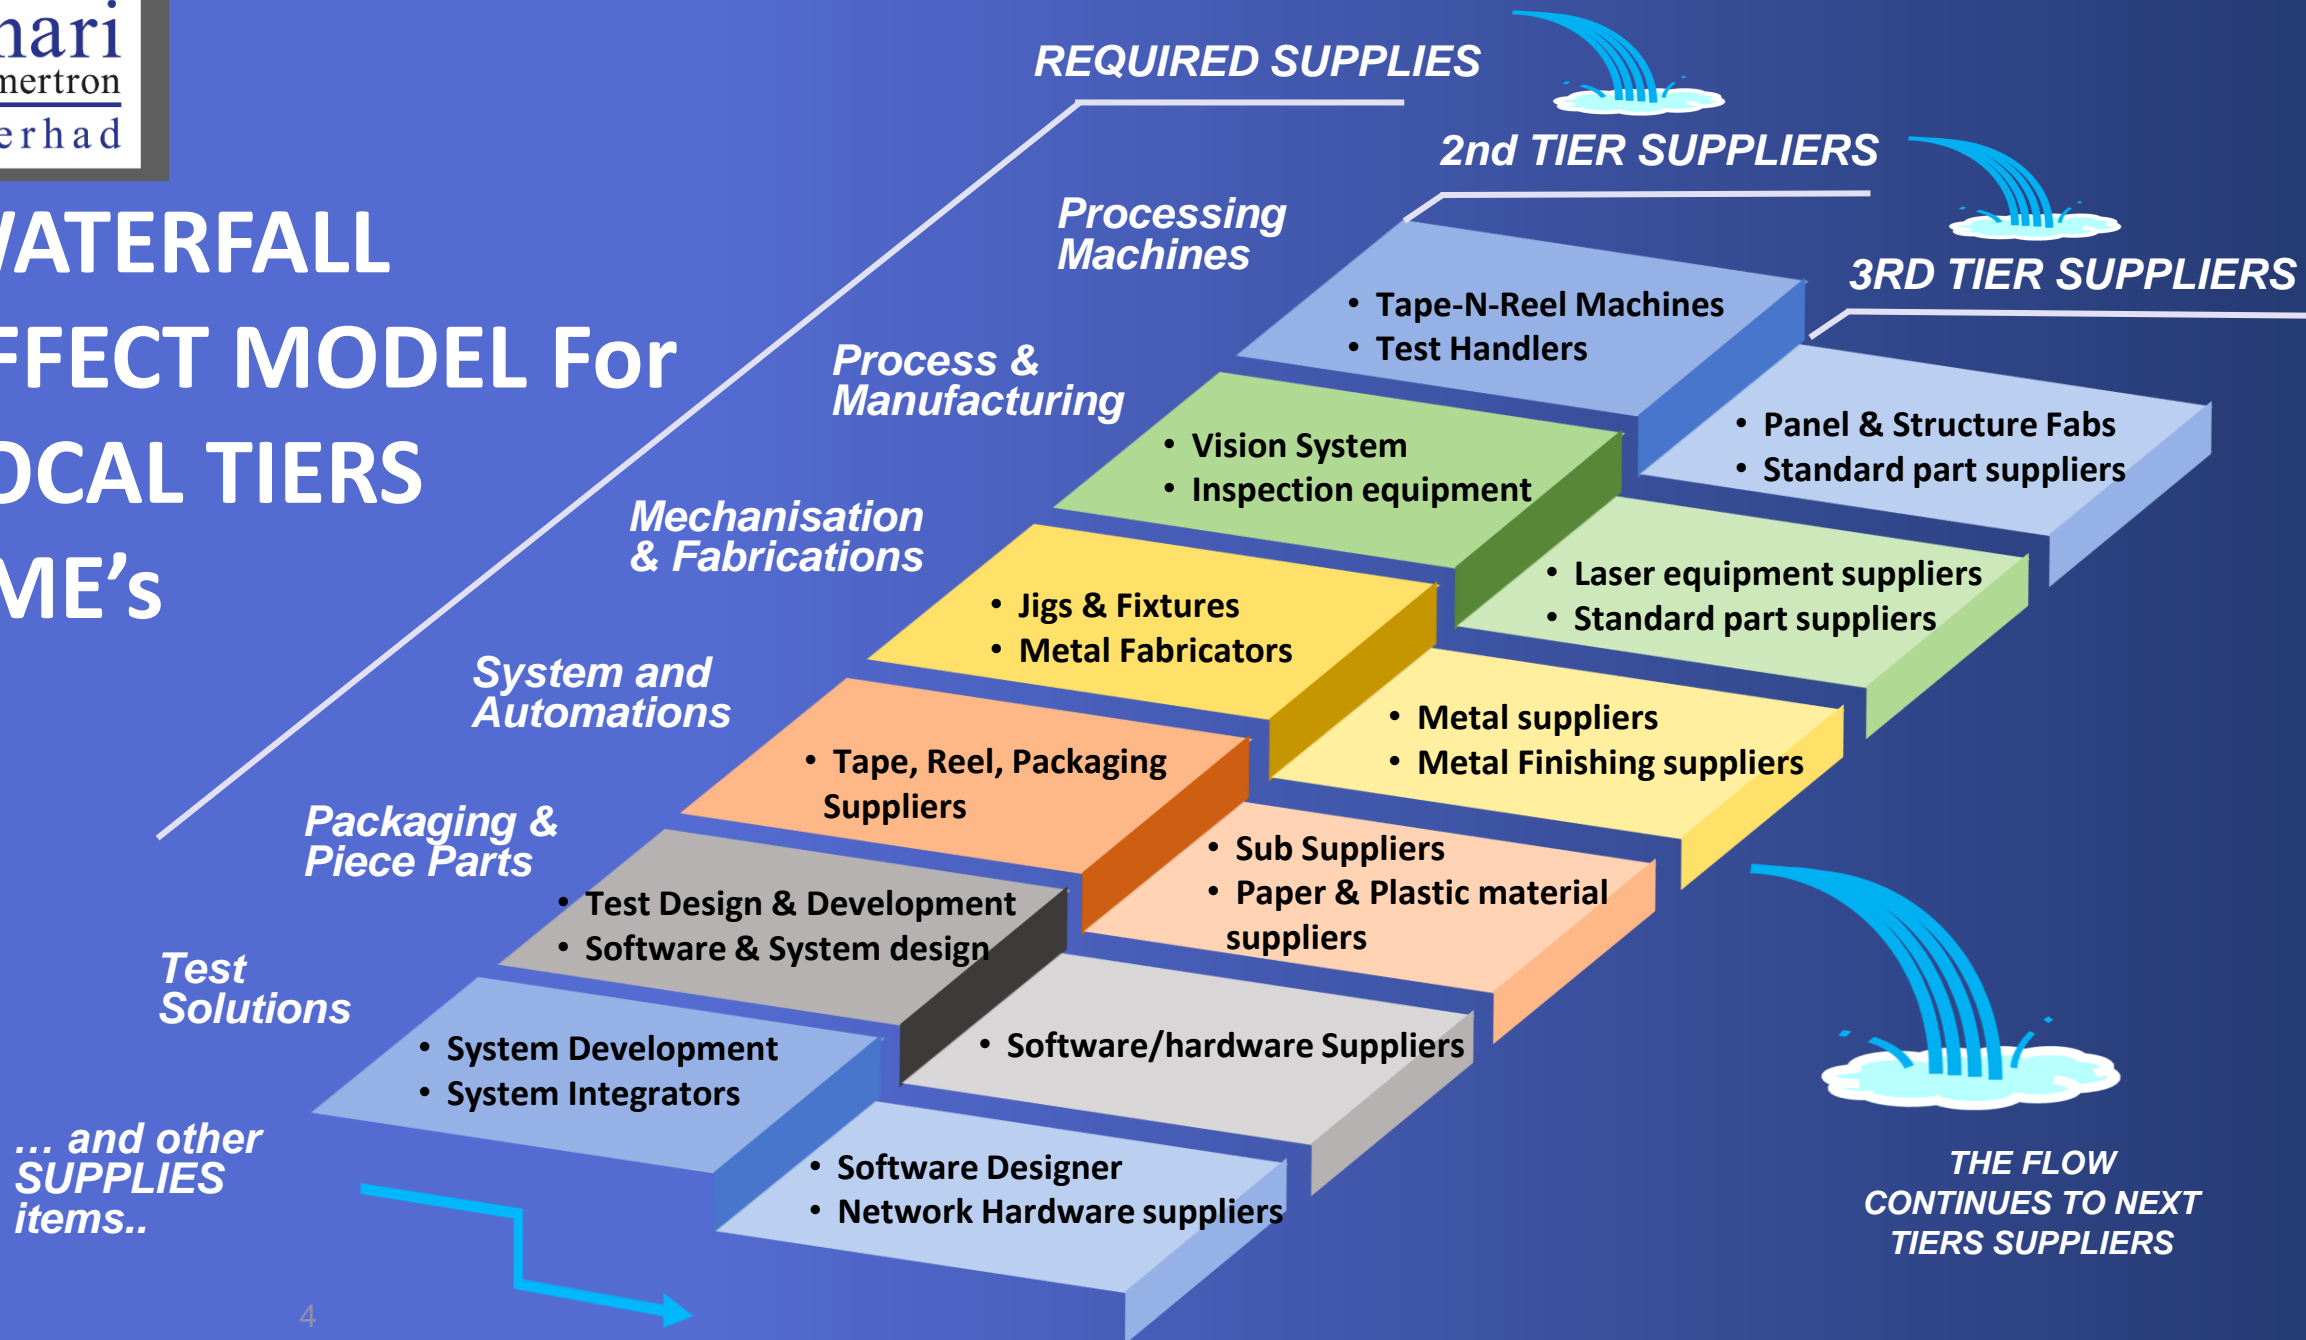

ASICs for  
Communications  
& Storage

**5+ Billion Chips Produced Yearly**
